BROOKLYN ITEMS.

THE LATE STABBING APPRAY AT GREENPOINT .-Justice Fox proceeded yesterday to investigate the stabbed Godfrey Brinkner, on Sunday morning last, at a porter-house in Greenpoint. It appeared from the testimony that McGrath raised a disturbance in the house, when the Germans proceeded to put him and Gallagher out, and in the muss Gallagher was somewhat beaten. The stabbing took place outside the door while Gallagher was on the stoop and Brinkner was standing on the door-sill. The defense set up was that Gallagher was being so severely beaten that he was obliged to act in self-defense.

The Justice will render his decision on Tuesday next. Meanwhile the parties-Gallagher and Mc-Grath-are admitted to bail. Brinkner is slowly recovering from his injuries.

THE ALLEGED MALPRACTICE CASE—INVESTIGATION REFORE CORONER HORTON.—An investigation was commenced yearriday before Coroner Horton and a Jury into the circumstances attending the death of Mrs. Betay Jenuy, residing at 80. 14 Rapelys street, who died, as alleged, in consequence of malpractice by a female physician named Emma Lodge, who had been called to attend ber. The woman, it appears, gave birth to a child on Friday bast, and on the Sunday following to another, beth of which were brought forth dead, and she (the woman) died in giving birth to the last one.

The principal witness examined was Dr. Louis Bauer, who testified as follows: THE ALLEGED MALPRACTICE CASE-INVESTIGA-

amether, both of which were brought forth dead, and she (the woman) field in giving hirth to the last one.

The principal witness examined was Dr. Louis Bauer, who fastified as follows:

On Sanday morning I was called to the house where Mrs. Kenny lived to attend a patient; some ladies entered my patient's room and stated there was a body lying in the adjoining room that had been dead but a few hours; that death had taken piace in childhed after the birth of twins, and they still suspected she had died with a third child in the womb; the request of these women that I should examine the body was my reason for entering the room; on entering the second-story front room, I found a dead body stretched on the floor, hadding in either arm a dead aboy; the body was exceedingly palled and white, as it would naturally though the copious loss of blood, contrasted with the otherwise good condition of the body; the abdonen was very uneven, sithough soft, and its appearance might have missed to the supposition of there being a third child within it; I introduced my when I heard the circumstances under which the death of the woman had cocurred, I suggested the fitness of the case for a legal investigation; the landlerd of the house undertook to give when I heard the Coroner; on the same afternoon I was honored with a requisition from Coroner Horton to make the post-mortem examination, which I performed about a o'clock, eight hours after death; I found the body still in the same position on the floor, otherwise little changed in appearance; on externally inspecting the body, in addition to the intense pallor, I observed considerable lacerations of the external examilation, which is performed about a o'clock, eight hours after death; I found the body still in the same position on the floor, otherwise little changed in appearance; on externally inspecting the body, in addition to the intense pallor, I observed considerable lacerations of the external examination, which is performed about a o'clock, eight hours after death; I fou replacents, in connection with the retained child, is detached partially—the womb, while the remaining portion partially—the womb being prevented from contracting leaves, terine vessels open, and from them blood issues out in large s; this loss of blood I should look upon as one of the causes of as an additional cause of the death of Mrs. Kenny, I should be presented childbirth itself, compressing the exertion of there, want of reet, and the evident insufficient supply of food per alimants; the mortification of the mucous membranes.

having been called in on Sunday morning, but it was then too late to save her bit.

Mrs. Fibrabeth Collina, residing in the same house, testified to being sent for Mrs. Lodge on Friday by Mrs. McKinney, and describing the events in connection with the sickness that transpired between that time and Sunday.

The investigation was adjourned until the 50th inst., at 2 decket p. m.

Victors Dogs.—In the City Court yesterday, an action was brought by Wm. Shepherd against James McCaman for damayer, hid at \$1,000, arising out of injuries sostained by the bits of a dog owned by defendant. Evidence was taken to prove that Shepherd was bitten on the 7th of March last, in Solvar atrect, and injured so that he had to send for a physician. The wound was in one of the legging. The dog was fighting with snother, which was owned by plainter. He separated them, with another, man. The dog broke loose, sprang at him, and bit him. It was attempted to be shown that the dog was victors, and was kept for fighting purposes. Counsel for defense moved a nonsent, on the ground that there was no proof showing that defendant knew the dog was victors, are that plaintiff did not notify thim (defendant) that the dog was dangerous. The motion was granted, and the case dismissed.

SUICIDE.—Yesterday afternoon Mr. Frederick Gib-bins, residing at No. 213 Adams street, cammitted suicide by tak-bins leadants or some other presones substance. The deceased came home from his place of business in Fulton street near Main, where he kept a barber shop and cigar store; about 4 o'chek went to bed, as was bis coston, and when tea was ready his wife went to call him. She found him stup-field and in a cold, sweat. Be-coming frightened, she sent for a physician, and sobsequently sur-gions Hall was sent for, who tried everything to reassectize him, but in vain; he was beyond recovery. The unfortunate man, it is thought, had labored under an aberration of mind for some day past, and committed the feed in this state. He leaves a wife and four children.

Youthful Burglars.—Three boys, named Thomas Hale, alias Charles Conner, Frederick Bird, and Henry Holmes, aged from nine to eleven years, were arrested to Storday afternoon by Officers George Bell and Marystt of the Fifth Prechot, for having burglariously entered the house of Caspian A. Sparks, in Astor place. On Finary the young thieves entered an adjoining bouse, and went out upon the roof and descended into the house of Mr. Sparks, which is at present uncocupied, when they unfastened one of the front windows. On Saturday they were seen, soon after they entered, by Officer Maryst, who went into the house after them, but found that they had escaped by the southes. The house was thoroughly ransacked, but they were disturbed before they had thus to take anything. The officer then procured the assistance of Officer Bell, and started in pursuit of the thieves. Holmes was found a short distance from the house. Officer Bell soon after found the boy Hale, who denied that his name was Hale, and said it was Charles Collins. After some further search, the boy Bird was found, and on Monday they were sent to the Truam Home. The boys, though young, had done their work in the house with the skill of experienced burglars.

ACCIDENT.—On Monday evening, James Hills, one of the drivers in the employ of the Broadway Railroad Company, was severely injured by failing from his car on Broadway, E. D. near Myrtle avenue. A swill cart was on the track sheed of him, and in turning off, the wheel of the swill cart streek the car, throwing Hills to the pavement, inflicting a severe wound on his head. His wounds are not dangerous.

CENSURE OF A POUNDMASTER.—The Coroner's Jury the case of the death of the boy Alexander Ming, who was kicked by a horse in the Eighth Ward some days since, consuited the Poundmaster for permitting his own cattle to run at large while empounding these of his neighbors. They also condemned the practice of remitting penalties by the Mayor.

GENERAL THEOLOGICAL SEMINARY.

The Annual Sermon before the Associated Alumni of the General Theological Seminary was delivered last evening at the Rev. Dr. Beach's Church in Twentieth

evening at the Rev. Dr. Beach's Church in Twentieth street, near Ninth avenue, by the Rev. Theodore B. Lyman, D. D., of Pittaburgh, Pa. About sixty clergymen from all parts of the Union, Aiumai of the Theological Seminary, were present.

The service was read by the Rev. Alfred Louderback, of Trinity Church, Davenport, Iowa, and the Rev. Robert L. Goldsborough, Rector of St. Aun's, Middleton, Delaware. The Rev. Doctors Van Kleck and Johnson sat in the chancel, and the Rev. Bishop Henry J. Whitehouse of Illinois sat to the right of the altar.

Henry J. Whitehouse of Illinois sat to the right of the altar.

Dr. Lyman selected the text, "But we have remonneed the hidden things of dishonesty, not walk ing in craftiness nor handling the word of God deceitfully, but by manifestation of the truth commending ourselves to every man's conscience in the sight of God," (2 Cor. IV. 2,) and proceeded to illustrate the various lessons taught therein. Dr. Lyman spoke of the organization and manimity existing in the Protestant Episcopal church, and urged that in preferring not to cooperate directly with other ecclesiastical bodies, the motive of that church should not be based on sectarianism, but on an honest difference of belief. The ministers of the Episcopal church believing in the excellence of their organization, should manifest the truth of their belief in their life and conversation. He regretted the departure of the Protestant Episcopal Church from its primitive model. He concluded by stating that true ministerial success did not depend on the orthodoxy of the creed, nor on the book of the offices of the church, but in the operation of the Holy Spirit; and he recommended the examples of the apostles as the true course in which the Christian preacher of the present time should follow.

The services were concluded with a benediction, after which the audience separated.

ated householders, adopted by Mr. Underhill in th "Unitary Home," in Fourteenth street, is finding imi tators here and elsewhere. The latest of these is the "Cincinnati Unitary Home," situated at No. 87 East Third street, Cincinnati, Ohio-Dr. Curtis, a wellknown citizen, having appropriated a spacious building for that purpose. The proprietor, Mr. Leavitt, is confident of success in the experiment. The household in this city has been eminently successful. Its apartments have been at all times filled, and even the depletion of its numbers by families leaving for the country, has been almost counterbalanced by the new cooperators. Another household similarly organised, has been for several months in operation on Bond street, with satisfactory results to its cooperators.

COMMERCIAL MATTERS.

There was a further slight improvement in stocks to-day, without any increased movement. The market appears to be slowly recovering, in spite of extraordinary dullness, and in spite of the various bear items which are freely circulated in the street and in the papers. It is hardly to be expected, however, that we shall have any extensive movement in a speculative way in the stock market until after the warm season, unless greater attractions are presented than are now developed in the traffic returns of our railway companies. The bull and bear speculators of the Stock Exchange are rather indisposed to vigor-ous efforts on either side, aithough many of the shorts have been closing up their contracts. There is no general sentiment at the Stock Exchange against an improvement, as some stock writers appear to believe. The majority of speculators, both inside and outside, endeavor to follow the tide in whichever direction it flows. The real causes of rise and fall are beyond the control of the Board of Brokers, and no men are more fully aware of this fact than the intelligent but over-sanguine individuals, who persist in looking upon the mere surface in their daily reasoning upon the subject. New-York Central was steady during the day, with scarcely any change in quotations worth naming. The largest purchases were for short account. Reading was firm at 421, and in the afternoon the bids ran up to 422, without sales. The operators now engaged in support of this stock have succeeded in giving it greater activity by feeding the market with each stock, and at the same time creating a larger short interest. The movement has been conducted with great skill and courage. Harlem Preferred was in fair request at 357 @ 351, and is tolerably firm at the quotations. Michigan Southern guaranteed ad-vanced to 281 in the morning, and was in demand at the price at the close of the call, but in the afternoon the stock fell back to 274 in consequence of the severe accident upon the line, reported by telegraph. Galena, Rock Island and Toledo were steady at about the prices current yesterday, without particular activity in either. Delaware and Hudson declined to 87. State Stocks were a fraction lower, with a moderate business, and there was no movement of importance in Railway Bonds. At "Unitary Household."-The plan of associ- the Second Board the only material changes were in The Receivers of the Hancock Bank, Ellsworth, ready alluded, and in Illinois Central, which advanced F cent. A spirited contest has for several weeks been carried on between the railroads running along the south shore of Lake Erie and Ward's steamboat line, which promises in its results to involve large losses to one or both parties before it is terminated. The boat ine is from Toledo to Buffalo, touching at Sandusky and Cleveland. Under the competition, fares have been reduced between Cleveland and Buffalo from \$5 to \$1 50. Passengers are ticketed by boat on the Lake at \$3 or \$4 less than by all rail.

The Philadelphia Pennsylvanian learns from the Hon. James Ress Spowden. Director of the Mint, that there is every reason to believe that the yield of gold, during the present season, from our gold-producing States, will afford a favorable comparison with that of any former year. The City of Wheeling is making an attempt to com-

promise its debt. The Wheeling Times says:

As to the terms of compromise effected, they can be very briefly stated. As we understand it, the Com-mittee agree that the city shall redeem our present outmattee agree that the city shall reason our present our standing railroad indebteiness—amounting to some \$5:8,000—by allowing the bondholders thirty cents in the dollar on the original or principal of the debt, in cash; or to issue to them new bonds at fifty cents on the dollar on the original amount, the bonds thus issued running through a period of twenty years, and bearing the usual interest. These are the terms agreed upon the terms the Compromise Committee on the part of the Island Railroad, 58 3587; Illinois Central Bonds, 83 between the Compromise Committee on the part of the city and the bondholders. By this means it is expected the indebtedness of the city will be very considerably reduced—say a bird to half the present amount—and no donbt is a tained but that we shall be abundantly able hereafter to meet our municipal obligations as they shall because due.

The arrangements entered into some time ago by the Banks of Philadelphia, to receive the notes of most of the Banks of the interior of this State, we learn will be discontinued on and after the first of next

At the meeting of the Directors of the Minnesota and Pacific Rathroad Company, in St. Paul, the following gentlemen were elected to the respective offices named: President, Edmund Rice; Vice-President. R. R. Nelsen: Secretary, T. M. Metcalf; Treasurer, E. Caldwell; Executive Committee, R. R. Nelson, D. C. Shepard, W. B. Shute, T. M. Metcalf, E. Caldwell; Attorney, J. B. Brisbin; Engineer, D. C. Shepard. Gov, Ramsay resigned his place as a member of the Board of Directors. The vacancy occasioned by this resignation is not yet filled.

The State of Indiana has for some time had the money ready in this city to pay the interest due July 1. The entire debt of the State is \$7,358,361; of which \$5,312,000 is 5 P cents, and \$2,045,861 is 24 P cents. This does not include about \$800,000 yet outstanding and unpaid, of what is called the Bank Loan. The Sinking Fund growing out of the State Stock in the late State Bank will pay off the balance of the debt with a surplus of about \$3,000,600, which goes to the School Fund of the State. The assess ments for taxation in the States for this year amoun to about \$650,000,000. Seven years ago the sun was about \$100,000,000. The annual State revenu will be about \$1,200,000. The expenses of the Stat Government, including interest on her debt, amount t \$530,000 per year, leaving a large surplus of revenue applicable to the annual reduction of the State deb which by law has to be thus invested, the Auditor Treasurer and Agent of the State constituting a Sinking-Fund Commission for that purpose. The 21 P cents are redeemable in 1867.

We have received a communication from P. Outwater, jr., the plaintiff in a recent law case alluded to in our columns, too late for publication to-day, but we shall endeavor to find room for his statement to-

The annual meeting of the shareholders of the Michigan Central Road was held in Detroit, on Monday merning, when the following gentlemen were

elected Directors for the ensuing year: J. W. Brooks, Boston, Mass.; Jno. M. Forbes, Boston, Mass.; D. D. Williamson, New-York: Erastus Corning, Albany, N. Y.; Edward Minturn, New-York: R. B. Forbes, Boston, Mass.; H. H. Hunnewell, Boston, Mass.; Nathaniel Thayer, Boston, Mass.; Elen Farnsworth, Detroit, Mich. The present Executive officers of the road were reflected by the Board. No dividend was declared, the Board determining to pay none when the net profits of the road would not clearly justify it. The annual reports will be out in a few days.

Extracts from letters received by Eliwood Walter, esq. Secretary of the Board of Underwriters:

The ship Queen of the South, from Boston, has damaged considerable cargo from having decks filled with water. Her bulwarts are 13 feet high, and hold water emough to strain any ship.

The Derby has also damaged much cargo from water through deck seams, bitts, sills of the house, and side ports. Cargo in the lower hold is in good condition.

The Storm King experienced bad weather, and shows signs of having been strained.

The Golden Rocket, from Boston, landed part of cargo damaged by salt water. Ships loading in the Winter land their cargoes in a worse condition than shose that lead in the Summer, when everything is dry, and caulking and regains can be done better.

There are several large houses who have lost seriously of late by damaged goods, not insured for particular average. Large premiums have been offered on ships over due, particularly the Maniton. Bales of fannels and domestics from factories being shipped without proper occurring to protect them, are very liable to damage.

The Departs of the state of the deck load of carbors.

The bark Contest lost part of her deck load of carbors.

shipped without proper covering to protect them, as to damage.

The bark Contest lost part of her deck load of carboys.

The Aspasia is landing in bad condition, having drawn and started some deck bolts in a heavy gale off the Horn.

The Hornet, from Boston, is landing cargo in miserable condition, especially between decks.

Several ships have been chartered for Johnson's Island, lat. 16
